Launching a new and novel Accelerator Program for emerging community leaders!

The **Global Solvers Accelerator** is an 8-month collaboration-based, peer-driven leadership program that pivots global opportunity and local potential for transformative change.

The Accelerator is a shared space of learning, growth, and deliberation where young SDG practitioners from around the global intersect their know-how and project experience to further impact and unleash the fullest transformative potential – theirs, that of their work, and that of the communities they serve. By working together with change agents from diverse sectors, places, and identities, participants connect capacity, share skills and transcend innovative practices while learning about different realities around the globe first hand.

**Eight monthly modules – Monthly learning themes – Consolidation and peer reviews – Practical application of skills at the project level**

Thematic Road Map - 8 month journey at a glance
Through an *eight months peer-focused, project-based, and collaborative impact journey*, participants refine their impact projects. They learn to pivot their skills, capacity, and connections to tap into the fullest transformative potential of their work to ignite shared solutions that cut across barriers of sector, place, identity, and further the **Sustainable Development Goals (SDGs)**. A flagship program of the Melton Foundation, the Global Solvers Accelerator is deeply intertwined with our unique community of global citizenship practice and is one to two entry points into the Melton Foundation Fellowship. Successful Global Solvers are integrated into the life-long Melton Fellowship as Senior Fellows towards the end of the program.

The learning in the program, happens in monthly modules, and within each module are intricate processes as shown below:
Who is the ideal Global Solver?

- Emerging community development practitioners (aged between 20 - 35 years)
- Curious, responsible, open-minded, forward-thinking, committed team player
- Has a proven track record of social impact, and actively engaged in or leading a local impact project!
- Familiar with the UN Sustainable Development Goals (SDGs)
- Aspires to transform society and generate positive impact at the grassroots level

At the Global Solvers Accelerator, young people from across the globe connect hearts, hands, and minds to unleash their generation's fullest potential to drive, own, and transform sustainable development from the grassroots level up.

What do we expect from participants?

Contribute an average of approx. 4 hours per week in order to actively participate in our peer-driven, collaboration-based 8-month leadership program.

Pay program fee of 250 USD within 1 month of selection into the program; Need and Merit-based Scholarships available (up to 80% participation fees).
The world does not face a shortage of solutions to global issues. What it needs is collaborative action that addresses multiple domains and defies boundaries.

Activate your global citizenship muscle to transform society from the grassroots level up!

Join the journey - become a Global Solver!

Apply to the Global Solvers Accelerator before 31st March 2022 and accelerate your impact!
