GLOBAL SOLVERS ACCELERATOR

Accelerating Transformative Change

- Connecting grassroots experiences
- Empowering community leaders
- Unleashing transformative change

To learn more, visit http://meltonfoundation.org/global-solvers-accelerator
AN IMPACT JOURNEY WITH EMERGING LEADERS WORLDWIDE, WHO JOIN HANDS, HEARTS, AND MINDS IN RE-ENGINEERING SOCIAL IMPACT PROJECTS FOR TRANSFORMATIVE CHANGE!

The Global Solvers Accelerator brings together community development leaders and social entrepreneurs across the globe for an impact-driven, project-focused, learning journey. Over eight months, participants learn and work together to enhance leadership skills, refine their social impact projects, and advance the Sustainable Development Goals. (https://sdgs.un.org/goals)

Eight monthly modules | Interconnected module themes | Substantial Peer Exchange | Applicable Methods & Tools | Tailored support & collaboration

Deploying a Global Citizenship mindset, we unite local solutions with global potential and foster a collaborative environment for emerging change agents to unleash their fullest transformative potential. Together, participants engage around purposefully designed module topics, blended learning, and project assignments in order to develop their leadership capacity and amplify their social impact projects.

By embracing transformation, participants refine and pivot their social impact projects through a well-designed learning journey and cross-boundary collaboration.

As a Melton Foundation signature program, the Global Solvers Accelerator offers a pathway to the life-long Melton Fellowship. Additionally, actively engaged participants are invited to attend a fully-sponsored week-long in-person retreat, the ‘Global Solvers Accelerator Co-Lab’ in July, where they'll collaborate to amplify community projects. Join us in driving change from grassroots to global!

The Global Solvers Accelerator can be your ticket to a transformative and impactful ride that goes way beyond the duration of the program!

Melton Foundation
Deep collaborations. Powerful actions.
The Global Solvers Accelerator is a learning journey that nurtures your leadership capacity starring today. Here's the roadmap for a unique journey toward deep collaborations, powerful actions, and transformative change.

**JAN**
- **GLOBAL SOLVERS ACCELERATOR**
